9	ACTIVITY REPORT:	<p>Report on river conservation./cleanliness river....</p> <p>Skylark foundation arts commerce science college khed shivapur organised river conservation programme in wadi village. All NSS student actively participated for this activity. River water conservation is a plan activity connected with various habitat features and outline how to conserve all river water spread across the world. All NSS students gathered in college campus on 7:00 a.m.. Then they reached in vadi village. Student collected all waste materials, garbage which were people thrown in that river. After clean all side of river they gave important message to all villagers. Some ways you can help conserve rivers. Use biodegradable cleaning product. Plant a tree. Sweep patios and side walk instead of using a hose. Limit pesticide use. The main objective of that activity to clean all river area. River conservation planning was conserving biodiversity, increase green covered. The aim of the plan was to prevent the pollution of rivers and improving water quality.</p>
10	STUDENT RESPONSE:	<p>Water conservation or river conservation is not choice but necessity. Responsible uses in homes agriculture and industry combined with the safeguarding of natural water forces ensure water availability for the current and future generation this collective effort is indispensable for the survivor or our planet... Beneficiary outcome.</p>
